

CYNTHIA PENDO

Junior Full Stack Developer

pendoc15@gmail.com · [linkedin.com/in/cynthia-pendo](https://www.linkedin.com/in/cynthia-pendo) · github.com/cpendo

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience delivering production systems across frontend development, backend API design, DevOps, and system architecture. Comfortable working across the full development lifecycle from requirements gathering and architecture decisions through to deployment and maintenance. Strong foundation in building scalable, user-centric web applications with a focus on clean architecture and practical delivery.

TECHNICAL SKILLS

Frontend: React.js, Redux, React Query, JavaScript, HTML/CSS

Backend: Node.js, Express.js, Django, PostgreSQL, MySQL, Sequelize, Mongoose

Other: REST API Design, PDF Generation, DevOps & Deployment, Git, Postman, UI/UX

EXPERIENCE

Junior Full Stack Developer | M-taka

July 2025 – Present · Hybrid

- Contributed to the architecture, design, and development of a multi-product digital platform spanning 9 products across the waste management sector
- Delivered frontend design and built across multiple platform products and full-stack development for core platform components
- Handled DevOps responsibilities, including cloud deployments and server configuration
- Contributed to technical decision-making, cross-product design consistency, and team-wide architectural discussions
- Independently acquired Django and DevOps skills to meet platform needs, applying both directly in production
- Implemented automated PDF generation and report distribution for platform reporting features

Backend Developer Intern | Thelathin Group

Aug 2024 – Oct 2024 · Remote

- Designed and implemented scalable backend architecture using Node.js, Express.js, MySQL, and Sequelize ORM
- Built and maintained REST APIs, including authentication (Passport.js), CRUD operations, routes, and controllers
- Wrote unit tests using Jest to ensure code quality, reliability, and adherence to security best practices
- Re-engaged post-internship to contribute to frontend development, built a dynamic form configuration system enabling reusable, schema-driven form generation across the platform

Software Developer Attachee | Zetech University

Oct 2023 – Jan 2024 · Ruiru Campus

- Led full-stack development of the Zetech University Alumni Portal using PHP, handling requirements gathering, UI/UX design, database design, backend implementation, and an admin portal
- Worked directly with stakeholders to refine user experience, functionality, and data management workflows

EDUCATION

B.Tech in Computer Technology — Second Class Upper Division

Technical University of Kenya · Graduated November 2024

CERTIFICATIONS & TRAINING

- **HCIA-Datcom Course** — Huawei Talent Online · October 2022
- **Become a JavaScript Developer** — LinkedIn Learning · April 2023
- **Cybersecurity Bootcamp** — Women Techsters Initiative · Tech4Dev & Microsoft · February 2023
- **Oracle Cloud Infrastructure Hands-On Workshop** — Oracle Academy Kenya · August 2023
